OFFICE ORDER

Subject: Constitution of five “Regional Power Committees (Transmission Planning)” (RPCTPs) - reg.

In supersession of this Ministry’s Office Orders of even number, dated 13.4.2018, constituting five Regional Standing Committees on Transmission (RSCTs) viz. Eastern Regional Standing Committee on Transmission (ERSCT), Western Regional Standing Committee on Transmission (WRSCT), Northern Regional Standing Committee on Transmission (NRSCT), Southern Regional Standing Committee on Transmission (SRSCT) and North Eastern Regional Standing Committee on Transmission (NERSCT), the undersigned is directed to state that in the light of the fact that the present transmission system is in the nature of One Nation- One Grid and the whole system as National System has to transport power seamlessly from one corner of the country to another corner of the country in the form of one single market, it has been decided to revise the existing five RSCTs by replacing the same with five new “Regional Power Committees (Transmission Planning) (RPCTPs)” with the following composition, with immediate effect:

Eastern Regional Power Committee (Transmission Planning) (ERPCTP):

</tbody>
</table>

* STUs to coordinate with their respective Distribution Companies (DISCOMs).  
* To be nominated by the Central Electricity Authority.
2. Terms of Reference (ToR) of the RPCTPs are to:
   i. Carry out a quarterly review of the Transmission System in the region; assess the
growth in generation capacity and the demand in various parts of the region; and draw
up proposals for strengthening inter-Regional transmission system. The transmission
planning is required to keep in mind the areas where the generation is likely to grow
and areas where load demand will grow so that the transmission system at any point
of time is capable to meet the demand in every corner of the country and comply with
the mandate under the Tariff Policy of developing transmission system ahead of the
generation for ensuring smooth operation of the grid.
   ii. Assess the transmission system requirements in the near, medium and long term and
draw up transmission schemes to meet these requirements. While doing this a
perspective plan for the next 15-20 years may also be kept in mind and accordingly
the requisite allowance/margin may be factored in the system during planning process.
   iii. Examine applications for connectivity and access and ensure that these are granted
speedily, provided that the requisite fees/charges are paid.
   iv. Review the upstream and downstream network associated with transmission
schemes.
   v. Examine and evaluate the intra-state transmission proposals.
   vi. Review and facilitate the construction of the inter-regional grid strengthening schemes.

3. The RPCTPs shall take steps to ensure that the transmission capacity is capable of
wheeling the electricity to different parts of the region and outside the region as per the
demands of the market. They shall carry out the quarterly reviews and make recommendation
for system strengthening and expansion keeping in mind the guidelines laid down by the Tariff
Policy.

4. The RPCTPs will forward their review of the transmission systems and their
recommendation for system expansion/ strengthening to the National Committee on
Transmission (NCT) at the end of every quarter- by 15th July; 15th October; 15th January and
15th April. The NCT will examine the proposals and forward them to Government with their
recommendations.

5. This issues with the approval of the Hon'ble Minister of State (Independent Charge)
for Power and New & Renewable Energy.

(Bihari Lal)
Under Secretary to the Govt. of India
